INDEPENDENT AUDITORS' REVIEW REPORT TO THE MEMBERS OF BABA FARID SUGAR MILLS LIMITED

Report on review of interim financial statements

Introduction

We have reviewed the accompanying condensed interim statement of financial position of BABA FARID SUGAR MILLS LIMITED (the "Company") as at March 31, 2019 and the related condensed interim statement of profit or loss, condensed interim statement of comprehensive income, condensed interim statement of changes in equity and condensed interim statement of cash flow, and notes to the financial statements for the six-month period then ended (here-in-after referred to as the "interim financial statements"). Management is responsible for the preparation and presentation of these interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements are not prepared, in all material respects, in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting.

The figures for the quarters ended March 31, 2019 and March 31, 2018 in the condensed interim statement of profit or loss and condensed interim statement of comprehensive income have not been reviewed and we do not express a conclusion on them.

BABA FARID SUGAR MILLS LIMITED

Emphasis of matters paragraph:

1. We draw attention to Note 1.3 to the condensed interim financial statements, which indicates that the Company incurred a net loss of Rs. 421.379 million during the period ended March 31, 2019 and, as of that date, the Company's current liabilities exceeded its current assets by Rs. 2,273.785 million. The accumulated losses have exceeded the issued, subscribed and paid up capital by Rs. 1,788.670 million as at March 31, 2019 and accumulated losses as of that date amounted to Rs. 1,883.170 million. These conditions, along with other matters as set forth in Note 1.3, indicate the existence of a material uncertainty which may cast doubt about the Company's ability to continue as a going concern. However, these financial statements have been prepared on a going concern basis based on the sponsors' commitment to provide financial support to the Company.

Considering the mitigating factors mentioned in the note 1.3, these condensed interim financial statements have been prepared on going concern basis. Our conclusion is not modified in respect of this matter.

2. We draw attention towards note 1.2 to the condensed interim financial statements where detail and status of the Company's acquisition has been mentioned.

Other matter

The financial statements of the Company for the year ended September 30, 2018 and half year ended March 31, 2018 were audited/reviewed by another auditor who had expressed an unmodified opinion / conclusion thereon vide their report dated January 04, 2019 and May 28, 2018 respectively.

The engagement partner on the review resulting in this independent auditor's review report is Muhammad Imran.

1.3 Going concern assumption

The Company incurred a net loss of Rs.421.379 million during the period ended March 31, 2019 and, as of that date, the Company's current liabilities exceeded its current assets by Rs. 2,273.785 million. As mentioned in note 1.2 to the condensed interim financial statements the acquisition will further bring strength, experience and efficiency to the Company. Specifically, the acquisition has the potential to: facilitate expansion and efficient growth of business; strengthen the management and finances; and improve financial planning; thereby facilitating business to be carried on more advantageously and economically with enhanced profitability. It is expected to yield better returns to the shareholders and additional benefits for other stakeholders. It is expected that the Company shall become more financially viable in comparison to its current status. It is also expected that the Acquirers will have better managerial planning. Consequently, the Acquirers may be able to pass on parts of the expected benefits to the other stakeholders such as the Government, employees, general body of consumers and the society at large. The Acquirers intend to appoint an experienced Board of Directors and professional management team to revive sugar mills operations and explore new markets. The Acquirers are confident that it will be able to expand the Company's business and operate more efficiently and profitably.

4. SIGNIFICANT ACCOUNTING POLICIES AND CHANGES THERE IN

The accounting policies and methods of computation adopted for the preparation of this condensed interim financial information is the same as those applied in the preparation of the financial statements for the year ended September 30, 2018, except for the adoption of IFRS 15 "Revenue from contracts with customers". The revised accounting policy adopted by the management is as follows:

4.1 IFRS 15: Revenue from Contracts with Customers

IFRS 15 'Revenue from Contracts with Customers' supersedes IAS 11 Construction Contracts, IAS 18 Revenue and related interpretations and it applies to all revenue arising from contracts with customers, unless those contracts are in the scope of other standards. The new standard establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers.

The Company has assessed that significant performance obligation in contracts with customers are closely related and, therefore, are discharged over the period of the relationship with relevant customers. Hence, the Company has concluded that it is in compliance with the requirements of the new accounting standard.

4.2 Applicability of IFRS 9 - Financial Instruments

On July 24, 2017, the International Accounting Standards Board (IASB) published IFRS 9 'Financial Instruments'. This standard was adopted locally by the Securities and Exchange Commission of Pakistan (SECP) through its S.R.O. 1007(I)/2017 dated October 04, 2017 and became effective for accounting periods beginning on or after July 1, 2018. Subsequent to the balance sheet date, SECP through its S.R.O. 229 (I)/2019 deferred the adoption of this standard and modified the effective date for applicability of this standard as reporting period / year ending on or after June 30, 2019. IFRS 9 sets out requirements for recognizing and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items. This standard will replace IAS 39 Financial Instruments: Recognition and Measurement.

5. SEASONALITY OF OPERATIONS

Due to seasonal nature of sugar business, operating results of the Company are expected to fluctuate in the second half of the year. The sugarcane crushing season normally starts from November and lasts till April each year.

BABA FARID SUGAR MILLS LIMITED

6. TAXATION

The provisions for taxation for the half year and quarter ended March 31, 2019, have been made using the estimated effective tax rate applicable to expected total annual earnings. The applicable income tax rate was reduced from 29% to 28% for the Tax Year 2020 on account of the changes made to the Income Tax Ordinance, 2001 through Finance Act 2018.

7. ESTIMATES

The preparation of these condensed interim financial statements in conformity with the approved accounting standards requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

During preparation of these condensed interim financial statements, the significant judgments made by the management in applying the Company's accounting policies and the key sources of estimation and uncertainty were the same as those that applied in the preceding audited annual published financial statements of the Company for the year ended September 30, 2018.
